

Rugby Union Professional Client Service

Opta's rugby department is the world leader in rugby data and statistics. We provide video, feeds and statistics for over 900 games each year. Through our newly redesigned website (which is available in English and French) clients are able to download video and data

easily and efficiently. We provide feeds that can be imported into Sportscode, Dartfish and TechXV, as well as xml feeds that can be imported into Opta's SuperScout, which allows the client to view time stamped events from the analysis, and create their own movies.

What is available from each match?

- Video – MP4 (less than 3GB, 1280x720)
- SuperScout xml (data which can be put into SuperScout)
- Feeds that are also available to import to SportsCode, Dartfish and TechXV (others may be made on request)
- Match Stats (A summary of both teams stats from the match)
- Home & Away (Detailed statistics for the Home & Away Teams)

Other stats available on site

- Team Reports (A collective report of statistics for a team from that competition)
- Referee Reports (A collective report of the referees performances)
- Tournament Reports (A collection of reports comparing teams and players over various categories thought the tournament)
